How is it Possible?

Simple, the pizza maker works the old fashioned way and cooks in a traditional oven.

It's simple and fast.

A refrigerated storage unit is located in the back of the machine. An automatic apparatus places the pizzas in the oven. An automatic transaction secures payment by ATM/Bank card.

**Without you, at all hours,
your pizzas are sold,
always maintaining that
sensational and traditional taste.**

The client can choose from six different varieties after having paid by ATM/Bank card. The pizzas are served fresh and warm with a savory crust, in just three minutes!
